

# EMD Serono Secured Distribution Program: Contracted Network Pharmacies

## Secured Distribution Program (SDP) Overview

### Contracted Network of Pharmacies

- EMD Serono contracts with a limited network of pharmacies—only these pharmacies can dispense Serostim®.
- Many contracted pharmacies provide counseling and injection training.
- Additionally, many offer courier service and other patient-focused services.

### Tracking of each Serostim® box

- EMD Serono tracks the unique identifier on each box of Serostim®.
- The products are tracked from the point of manufacture to the point of final dispense to the patient.

### Patient Support Services

The Patient AXIS Center® is a patient support program dedicated to Serostim® reimbursement and education. Contracted pharmacies can work with the Patient AXIS Center® to assist patients through the Serostim® reimbursement process.

The Patient AXIS Center® provides patients prescribed Serostim® a variety of product support benefits, including:

- A dedicated case manager who will manage the reimbursement process and be the single point of contact
- Where eligible, financial assistance programs may help cover out-of-pocket costs related to the Serostim® prescription
- Injection training to teach patients how to administer Serostim®
- Phone support to answer all Serostim® product-related questions
- For more information visit [www.GetAxisSupport.com](http://www.GetAxisSupport.com)

## Secured Distribution Program Results

Since the launch of SDP in 2002, EMD Serono has:

- Identified counterfeit product and stopped it from reaching patients
- Interrupted product diversion at the pharmacy level
- Prevented duplicate payments
- Provided information to regulatory agencies on investigations of counterfeiting and diversion

Please visit [Serostim.com/PI](http://Serostim.com/PI) for full Prescribing Information.
